Newsletter May 2018

Dear Friends

UpARA can never be accused of being boring or resting on our laurels, no better example than our first short break holiday to Potters – a roaring success thanks to Brenda and Malcolm.

As I always remind you, keep an eye open for all our news of upcoming events and activities, just to ensure you do not miss out on anything.

Our Pilates sessions have run into a problem and we have had to suspend them. Hopefully to restart at some point in the future.

At our meeting on the 11th May we also have our AGM, and I hope to see a good turnout of members. Please remember to bring your copies of the AGM document and previous minutes with you. There will only be a few extra available on the day. As part of the AGM there will be a vote on a small amendment to our constitution, which has been posted on our notice boards. During the course of the meeting there will be a modest plant sale and a straw poll to seek your ideas on supporting a charity over the next year.

As this is the last Newsletter before I stand down as your Chairman, perhaps you will indulge me in passing on an observation about UpARA. All the activities and events that we undertake are important but are really only a means to an end. What is most important about UpARA is that it provides a chance for so many individuals to come together and do something as a like-minded group.

Long may UpARA flourish!

David
